

*The surgery accepts new patients
Please make an appointment for initial visit !*

Accommodating surgery hours suited to patients' needs -
appointments, consultations (by phone, via e-mail)

Short waiting times for the examination

Administration of sick notes for insurance purposes

Corporate health services

Medical certificates (for driving licences, study applications, activities
related to sports, gun licences etc.)

Medical documentation for claiming social benefits and other
benefits

Preventive examination – expenses covered by insurance
companies (every 2 years)

Vaccination (regular, exceptional, on request)

Ambulatory blood pressure monitoring

Regular blood pressure test, risk indication of cardiovascular
disease and prevention, ECG assessment with explanation and
evaluation

Fecal occult blood examination (standardized test) with
explanation and evaluation of the outcomes (colon cancer
prevention)

Rational antibiotic therapy including CRP-device to diagnose
inflammatory disorders (viral x bacterial)

Blood clotting tests with Coagu-chek device and coordination of
the anti-coagulability therapy

**We offer the above in pleasant surroundings of the surgery with
personal approach. Services provided both in Czech and English.**
